## EXECUTIVE SUMMARY

---

Dedicated Junior Web Developer with a strong foundation in modern frontend and fullstack technologies, including React, Laravel, and Tailwind CSS. Passionate about Artificial Intelligence and actively integrating AI-driven solutions to build highly functional and innovative digital experiences. Proven track record of delivering custom internal systems for clients and collaborating effectively within digital product teams.

## EDUCATION

---

### **Bachelor's Degree in Informatics, Institut Bisnis dan Teknologi Indonesia (INSTIKI)**

2024 - 2028

- GPA: **3.85**
- Relevant Courework: Web Development, Database Management, UI/UX Design

### **SMKN 1 Sukawati | *Vocational High School Majoring in Software Engineering (Rekayasa Perangkat Lunak)*** 2021 - 2024

- Relevant Courework: Algoritma Pemrograman, Basis Data, Pemrograman Berbasis Web.

## WORKING EXPERIENCES

---

### **Freelance Web Developer, Freelance (Remote)** 2024 – Present

- Developed custom web applications and internal information systems to digitalize business operations and optimize client data management.
- Designed and built internal transaction and inventory tracking systems tailored to specific client workflow requirements.
- Implemented interactive admin dashboards for data visualization and automated reporting, significantly improving operational efficiency.
- Handled end-to-end deployment, including system integration, database configuration, and hosting management.

### **Collaborative Frontend Developer & Treasurer, Bajra Media** 2023 – Present

- Collaborated within a digital product team to optimize web interface user experiences and develop responsive layouts.
- Served as a backup programmer, actively resolving frontend bugs and ensuring cross-browser compatibility using React and Tailwind CSS.
- Managed project budget allocations and kept structured records of team expenditures.

### **System Support & QA Intern, PT Balisoft Lintasmedia** Mar 2023 – Aug 2023

- Conducted rigorous functional testing on various internal software products
- Analyzed, tracked, and documented bug findings in a highly structured manner to facilitate efficient debugging for the developer team.
- Assisted in daily system support operations, ensuring smooth and uninterrupted application workflows for end-users.

## ORGANIZATIONAL EXPERIENCES

---

### **Club President, INSTIKI Body Healthy & Body Building Club** Jul 2025 – Jul 2026

- Led the campus health and fitness student organization, directing the executive board and managing over 60 active members.
- Served as the Chairman of an International Seminar, successfully overseeing event planning, budgeting, and execution.
- Supervised daily gym facility operations and managed routine maintenance of fitness equipment for the university community.

### **Publication, Documentation & Technical Operator, Inkubator Bisnis INSTIKI** 2026

- Managed end-to-end event documentation and designed promotional materials for IDEASI 2026 to increase event awareness and attendee engagement.
- Served as the lead technical operator during the main event, managing live audio-visual setups and ensuring seamless speaker presentations.

### **Fundraising Committee Member, UKM INSTIKI Developer Club** 2025

- Planned and executed creative fundraising initiatives to financially support the International Seminar of Instiki Developer Club 2025.
- Collaborated effectively with team members to secure sponsorships, manage budgets, and ensure all financial targets were met.

### **Fundraising Committee Member, UKM FPK Kemahkris** 2024

- Organized and executed fundraising strategies to support the 2024 Christmas Event operations.
- Worked alongside committee members to gather funds and secure necessary event resources.
